

deceuninck®

the new window that brings peace to your home

zendow®

NEW WINDOW

zendow, the new window of perfect life.

Whether you look at a close range
or from a distance,
aesthetics is in front in zendow.

zendow; the window with outstanding sound
reduction durability and performances
by means of its rates and
PVC profile thickness of 70mm.

zendow gives the priority to simplicity, and provides a perfect harmony with both the architecture and the decoration of your house. Its warm and soft lines bear the traces of a classical and modern style. Its rounded lines make you live the perfection not only with its image but also with the sense it provides when you touch it.

The design of zendow has been purified from excess. The designers and engineers who made geometrical calculations of the frame has created wonders with technology and succeeded both in increasing resistance and in providing more light at the same time.

zendow's design bears all the advantages of symmetric profile. zendow provides the same aesthetics both from the inside and the outside of your house. Open or closed; zendow will be a part of the style of your house.

zendow provides aesthetics, outstanding sound reduction and durability at the same time with its rates and PVC profile thickness of 70mm.

zendow harmonizes easily with the style of your house by the help of its design and conception. All the parts have been designed for harmony in every finest detail.

Your window can change style completely by means of all main profiles, casing and closure profiles, windowsills and all the other supplementary products and thus harmonizes with the room. You will only have to make your choice.

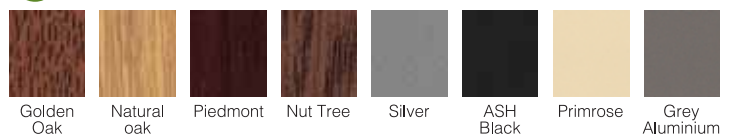

zendow also benefits from Deceuninck's wide experience in color. You may personalize your window by making your selection among the wide and high quality color palette of zendow.

Normal Lamination

Solex (7 years warranty)

Environment-friendly Ca-Zn stabilizer is used in the production of PVC profiles.
